MISSION

Supporting our customers with quick responses, viable solutions and quality work, that is our hallmark; that is our promise; that is the mission of Arteaga Landscapes, LLC.

Streets and highways are the lifelines of a community. They provide the means for everything we do. From work and play, to school, shopping and hospitals, we depend on our transportation systems to get us there. Arteaga understands that the quality of our roads is a concern for everyone. However, we believe the responsibility for constructing and maintaining quality roads rests with the road construction industry.

Arteaga Landscapes stands ready to assist the industry in meeting this challenge. Our team of experts is skilled in the disciplines that are critical to constructing streets, roads and highways in ways that are environmentally responsible and passionate about constructing hardscapes and softscapes that provide function and beauty to the final environment, for years and years to come. We are committed to achieving the highest industry standards.

PAST PERFORMANCES

Since its establishment in 2012, Arteaga Landscapes has provided services for a number of high profile projects throughout the Greater Chicagoland Area. Highlighted below are a few of them.

O’Hare Expansion: Arteaga Landscapes provided final grading, seeding and hydro mulching for much of the landscape surrounding these new facilities.

Dan Ryan Reconstruction: Arteaga Landscapes hauled and spread the top soil and seeding from 35th Street and 107th Street along both sides of this massive highway project.

Grass Lake Road Pedestrian Underpass, in Lindenhurst, Illinois: Arteaga Landscapes’ work on this major restoration project included the building of retaining walls, planting trees, seeding and sodding.

Washington Street Restoration, in Round Lake, Illinois: Arteaga Landscapes’ work on this major artery included the building of retaining walls, delivering and spreading top soil, laying sod and planting trees.
